

Denominational Health Plan (DHP) Policies

Adopted by the Executive Council Diocese of Western North Carolina

Background (*Adoption Date: August 8, 2019*)

In 2009, the 76th General Convention of The Episcopal Church (TEC or Church) passed Resolution A177 requiring all domestic dioceses, parishes, missions, and other ecclesiastical organizations or bodies subject to the authority of the Church to provide medical benefits solely through the Episcopal Church Medical Trust (the Medical Trust), which is administered by Church Pension Fund.

On August 8, 2019 and effective CY 2023, the Executive Council Diocese of Western North Carolina adopted by Resolution and implemented Denominational Health Plan (DHP) Policies. These policies supersede and update those policies.

This policy is to be used in conjunction with the Episcopal Church Medical Trust plan terms and conditions.

DHP Policies effective CY2024

Eligibility:

- Clergy and lay employees of Episcopal Diocese of Western North Carolina including parishes, missions, conference centers and other ecclesiastical organizations or bodies subject to the authority of TEC within this Diocese who are regularly scheduled to work 1,500 hours or more per year or 30 hours per week, on average, are required to offer DHP medical plan coverage and Group Life Insurance at the employer paid minimum noted below (80% of the Target Plan).
- Clergy and lay employees that are regularly scheduled to work between 1,000 and 1,499 hours per year (20 to 29 hours per week on average) are eligible to participate voluntarily at the employees' expense.
- Employers sharing clergy or lay employees should coordinate enrollment and cost-sharing if the total number of hours worked for both employers exceeds the requirement for mandatory coverage.
- Clergy and lay employees who have healthcare benefits through Diocesan approved sources will be allowed to waive healthcare coverage under the DHP ("opt out") and may choose to maintain their healthcare benefits through an approved source. Examples of approved sources include:
 - coverage through a spouse's or partner's employment,
 - healthcare benefits through a government sponsored program such as Medicaid or TRICARE,
- Declaration of the individual waiver will occur on an annual basis and should be filed with the Diocesan Office.

Pre-existing Conditions:

- When an eligible employee enrolls in the plan during either an open enrollment period, or as the result of a qualified family status change, pre-existing conditions will not apply to payment of benefits.

Denominational Health Plan (DHP) Policies

Parity:

- Within each Episcopal Diocese of Western North Carolina organization, all eligible clergy and lay employees must be treated equally and be offered the same minimum level of coverage and funding for all medical benefits offered.
 - The same contribution percentage of the premium cost or flat dollar amount.
 - The same coverage level (i.e., single, family, etc.).
 - The same benefit plan designs.

Required Minimum Employer Healthcare Contribution:

- Each Episcopal Diocese of Western North Carolina organization must provide a minimum dollar contribution for all eligible employees equal to 80% of the Single coverage for the Target Plan (see Attachment A)
- Parishes and covered institutions are free to offer higher coverage, as long as parity is maintained.
- Lay and clergy employees who work 20-29 hours per week may, but are not required to, participate in the DHP. However, the employer is not required to fund any of the premium or deductible. If the employer does contribute to the premium it becomes taxable income to the employee. In each parish or covered institution, parity must be maintained in this group.

Pre-tax Employee Contributions:

- Employees are permitted to use pre-tax dollars to pay their share of the cost of group health plan coverage if their employer has adopted and established a "cafeteria plan." The employer, not the Medical Trust, must establish and maintain the cafeteria plan for covered employees,
- An employer-sponsored cafeteria plan is a written document that satisfies the requirements of section 125 of the Internal Revenue Code and gives employees a choice between receiving compensation in cash or paying for group health plan coverage on a pre-tax basis.
